

Our common ground is solidarity

Lampedusa – stop the dying

Demonstration

Thursday, October 2nd, 2014, 4 pm, Hauptbahnhof (central station) Osnabrück

In remembrance of the people who died because of the European Border Regime, the „Bündnis gegen Abschiebungen“ calls for a demonstration:

For Living Space, jobs and freedom of movement!
Stop Dublin-Regulation!
Refugees Welcome!
Stop Deportations!

Overview:

As we think of the almost 400 people who lost their life one year ago in front of Lampedusa, we should also think of the 24,000 dead on the European (outer-) borders, who have not made it to the public at large – those who fled from violence, war, displacement and poverty – and who became victims of an ignorant and cynical politic.

On 3rd of October Germany celebrates the „day of german unity“. While german „flight“ on the former german-german-border is addressed as a topic, we don't forget that the militarisation of borders is still killing hundred thousands of people.

With a strong community – and our fight against international exploitation – together we can build a better future. Because our life will be different, if we learn in transnational exchange from

different social movements, to overcome national states and military borders.

**Living Space – Jobs – Freedom of movement in and to Europe
and everywhere!**

**Against Dublin-Regulation!
Refugees Welcome!
Stop deportation!
We all want to live together!**
